

## A723G - ANDROID 5.1.1 HARD RESET

Warning: This process will erase all previous data/software installed by the user. Make sure to back your data. Also, make sure to have at least a 50% battery charge before attempting this process.

1. While your Tablet is turned off, press both the (VOL-) + Power button at the same time until you see the INTEL logo. Then you will see this image:

```
reboot system now
apply update from sdcard
wipe data/factory reset
wipe cache partition
```

2. Using the VOL button, select WIPE DATA FACTORY RESET. Press the POWER button to initiate this process.
3. In the same manner, select YES -- DELETE ALL USER DATA

```
Yes -- delete all user data
```

4. The Tablet will start formatting and reinstalling the firmware. This process will take about 3~5min. The process is finished when you see on screen DATA WIPE COMPLETE.

```
-- Wiping data...
Formatting /data...
Formatting /cache...
Data wipe complete.
```

5. Then select REBOOT SYSTEM NOW and press the POWER button to reboot.

```
reboot system now
apply update from ADB
wipe data/factory reset
wipe cache partition
reboot to bootloader
power down
view recovery logs
```

6. Upon restarting, you will see on screen the AOC logo. Wait approximately between 5~7 minutes until you see the welcome screen.
7. End
